

To: GKDC Participants, Faculty Advisors, College HODs & Principals,

17th May 2016

Greetings from Go Kart Design Challenge!

I would like to take this opportunity to express my profound gratitude for all your dedication, efforts and commitment towards Go Kart Design Challenge. It is indeed an evidence of your trust upon us that we have been able to raise the design challenge season by season and reached almost every engineering college of India. We genuinely appreciate your remarkable contribution in making GKDC a grand successful design challenge.

We have been successfully affiliated to India's one & only; well-known to everyone; the supreme motor sports authority "The Federation of Motor Sports Clubs of India". Also, SFI Foundation Inc, California - USA; the biggest name in motor sports and industrial safety has accredited us as their Official Sectioning Body in India.

4th GKDC grabbed an overwhelming response from the teams. It becomes very essential to announce that 189 teams are registered this year in the event and the competition is going to be really very tough this time. It's important to note that the Pre-Final Round of 4th Go Kart Design Challenge will be conducted from Aug 6th to 7th; details about the venue, schedule and other guidelines will be communicated to all the teams at the earliest.

Further details on Presentation Guidelines, Time Slots, Schedule & other related information will be shared to the teams as early as possible.

I wish all the participants a best of luck.

Best Regards,

Umesh Kumar
Convener - 4th GKDC
